

WOW Community Edition

It is almost impossible to stay competitive in today's business world. Companies need to have live business data to insure adequate decision making, and real-time accuracy is essential. Most business CIOs include business intelligence and analytics to increase their company competitiveness.

WOW CE allows retrieval of this data immediately allowing the analysis of the key metrics necessary to drive businesses. By providing end-user query and reporting along with an intuitive data display, companies can use their existing staff to create state-of-the-art intranet applications in minutes and there's no learning curve to complex web development.

WOW Features

WOW CE provides a free powerful product to build state of the art web applications. Data "reports" can be created from any database such as Oracle, Microsoft SQL SERVER, IBM i DB2, Pervasive, Access, and others. Instantly convert your data into Microsoft Excel.

Create powerful "drill downs" in minutes with no coding required. WOW CE is easily integrated into your environment. WOW CE can run on any Windows or Linux machine.

WOW Benefits

- ▶ Simple-to-deploy business intelligence and analytics
- ▶ Modernize existing DB2 green screen queries and internal reports
- ▶ Runs on PC server, IBM i5, and Linux as well
- ▶ Tomcat application server
- ▶ Lower costs by utilizing existing in house skills
- ▶ Drill down and details
- ▶ Search by any parameter
- ▶ SQL (no Java) skills required
